

Water-Data Report 2008

210432156484801 Pukoo Spring at Pukoo, Molokai, HI

LOCATION.--Lat 21°04'14.5", long 156°48'00.0" referenced to North American Datum of 1983, Maui County, HI, Hydrologic Unit 20050000, at Pukoo, 15 mi east of Kaunakakai on Highway 450, 300 ft towards ocean from Highway.

WATER-QUALITY RECORDS

PERIOD OF RECORD.--April 2002 to September 2008 (discontinued).

REMARKS.--As the number of streams on which streamflow information is likely to be desired far exceeds the number of continuous-record stream-gaging stations feasible to operate at one time, the Geological Survey collects limited streamflow data at sites other than continuous-record stream-gaging stations. When limited streamflow data are collected on a systematic basis over a period of years for use in hydrologic analyses, the site at which the data are collected is called a partial-record station. Data collected at these partial-record stations are usable in low-flow or flood-flow analyses, depending on the type of data collected.

In addition, discharge measurements are made at other sites not included in the partial-record program. These measurements are generally made in times of drought or flood to give better areal coverage to these events. Those measurements and others collected for some special reason are called measurements at miscellaneous sites.
