LOCATION.--Lat 20°56'38.6", long 156°30'58.2" referenced to North American Datum of 1983, Maui County, HI, Hydrologic Unit 20020000, 4.2 miles northwest of Wailuku post office on Highway 340, 2.1 miles West of Waihee Elementary school on Kakeili Highway (Highway 340) and 1.1 miles Northwest of intersection of Waihee valley road and Kakeili Highway (Highway 340).

SURFACE-WATER RECORDS

PERIOD OF RECORD.--October 14, 2010 to September 30, 2011 (discontinued).

GAGE.--Non-recording gage, staff plate.

REMARKS.--As the number of streams on which streamflow information is likely to be desired far exceeds the number of continuous-record stream-gaging stations feasible to operate at one time, the Geological Survey collects limited streamflow data at sites other than continuous-record stream-gaging stations. When limited streamflow data are collected on a systematic basis over a period of years for use in hydrologic analyses, the site at which the data are collected is called a partial-record station. Data collected at these partial-record stations are usable in low-flow or flood-flow analyses, depending on the type of data collected.

In addition, discharge measurements are made at other sites not included in the partial-record program. These measurements are generally made in times of drought or flood to give better areal coverage to these events. Those measurements and others collected for some special reason are called measurements at miscellaneous sites.
