

**02349330 BUCK CREEK TRIBUTARY AT GA 240, NEAR TAZEWELL, GA**

Apalachicola Basin  
Middle Flint Subbasin

LOCATION.--Lat 32°20'49", long 84°22'26" referenced to North American Datum of 1927, Schley County, GA, Hydrologic Unit 03130006, at culvert on GA 240, 4.3 miles east of Tazewell.

DRAINAGE AREA.--0.40 mi<sup>2</sup>.

**SURFACE-WATER RECORDS**

PERIOD OF RECORD.--1977 to current year.

GAGE.--Crest-stage partial-record gage. Datum of gage is 495 feet above National Geodetic Vertical Datum (from topographic map).

COOPERATION.--Georgia Department of Transportation.

REMARKS.--A crest-stage gage is a device which will register the peak stage occurring between inspections of the gage. A stage-discharge relation for each gage is developed from discharge measurements made by indirect measurements of peak flow or by current meter. The date of the maximum discharge is not always certain, but is usually determined by comparison with nearby continuous record stations, weather records, or local inquiry. Only the maximum discharge for each water year is given. Information of some lower floods may have been obtained, but is not published within. The years given in the period of record represent water years for which the annual maximum has been determined.

EXTREMES FOR PERIOD OF RECORD.--Maximum stage, 4.37 feet, October 1, 1989; maximum discharge, 103 cfs, October 1, 1989.

**MAXIMUM PEAK DISCHARGE  
WATER YEAR OCTOBER 2011 TO SEPTEMBER 2012**

Date	Discharge, in ft <sup>3</sup> /s	Discharge qualification code	Gage height, in ft	Gage height qualification code
2012	8.83	4,B	1.54	4

Discharge qualification codes:

4 - Discharge less than indicated value, which is minimum recordable discharge at this site

B - Month or day of occurrence is unknown or not exact

Gage height qualification code:

4 - Gage height below minimum recordable elevation
