

Water-Data Report 2013

07076634 LITTLE RED RIVER AT JUDSONIA, AR

Upper White Basin
Little Red Subbasin

LOCATION.--Lat 35°16'03", long 91°38'23" referenced to North American Datum of 1983, in NW ¼ NW ¼ sec.3, T.7 N., R.6 W., White County, AR, Hydrologic Unit 11010014, at bridge on county road just south of Hwy 385 curve at south edge of Judsonia, and at river mile 25.2.

DRAINAGE AREA.--1,690 mi².

SURFACE-WATER RECORDS

PERIOD OF RECORD.--Oct 1981 to current year.

REMARKS.--As the number of streams on which streamflow information is likely to be desired far exceeds the number of continuous-record stream-gaging stations feasible to operate at one time, the USGS collects limited streamflow data at sites other than the continuous-record stream-gaging stations. When limited gage-height data are collected on a systematic basis over a period of years for use in hydrologic analyses, the site at which the data are collected is called a stage-only station. Data collected at these partial-record stations are usable in low-flow or floodflow analyses, depending on the type of data collected. The following table contains the annual maximum stage for this stage-only station. No discharge measurements are made at stage-only stations. Only the maximum gage-height for the water year is given. The years given in the period of record represent water years for which the annual maximum has been determined.

**MAXIMUM PEAK DISCHARGE
WATER YEAR OCTOBER 2012 TO SEPTEMBER 2013**

Date	Discharge, in ft³/s	Discharge qualification code	Gage height, in ft	Gage height qualification code	Peak gage height date	Peak gage height, in ft	Peak gage height qualification code
