

Water-Data Report 2013

07265280 ARKANSAS RIVER AT PENDLETON, AR

Arkansas Basin
Lower Arkansas Subbasin

LOCATION.--Lat 33°58'43", long 91°23'04" referenced to North American Datum of 1983, in SE ¼ NE ¼ NW ¼ sec.27, T.8 S., R.3 W., Desha County, AR, Hydrologic Unit 08020401, at Pendleton, approximately 9 mi northeast of Dumas, and 44.5 mi above mouth.

DRAINAGE AREA.--160,000 mi².

SURFACE-WATER RECORDS

PERIOD OF RECORD.--Oct 1992 to current year.

REMARKS.--As the number of streams on which streamflow information is likely to be desired far exceeds the number of continuous-record stream-gaging stations feasible to operate at one time, the USGS collects limited streamflow data at sites other than the continuous-record stream-gaging stations. When limited gage-height data are collected on a systematic basis over a period of years for use in hydrologic analyses, the site at which the data are collected is called a stage-only station. Data collected at these stations are usable in low-flow or floodflow analyses, depending on the type of data collected. The following table contains the annual maximum stage for this stage-only station. No discharge measurements are made at stage-only stations. Only the maximum gage-height for the water year is given. The years given in the period of record represent water years for which the annual maximum has been determined.

**MAXIMUM PEAK DISCHARGE
WATER YEAR OCTOBER 2012 TO SEPTEMBER 2013**

Date	Discharge, in ft³/s	Discharge qualification code	Gage height, in ft	Gage height qualification code	Peak gage height date	Peak gage height, in ft	Peak gage height qualification code
